Property ID: 3091DC

List Price: US\$ 397,500

Description

This scenic piece of ocean front land sits in an elevated position overlooking the rugged coastline just below. It offers an attractive, rustic outlook supported by natural tropical vegetation which leads down to the sea. A natural water course runs along the northern boundary and separates the land from the neighbouring landscape.

Located just to the north of Martin's Bay and a few miles south of Bathsheba on the east coast of the island, the area is undeveloped, tucked away and unspoilt. The land is located a few hundred meters down an unfinished road and has a large flat area that could easily house several villas with sea views that all have access down to sea.

SALE PRICE: BDS\$795,000 / US\$397,500
